iPad with Voice Dream Reader-

Voice Dream Reader is an electronic book reader. With advanced text-to-speech and a highly configurable screen layout, it can be tailored to suit every reading style from completely auditory to completely visual, plus synchronized combination of both.

Voice Dream Reader supports reading PDF and Word documents, DRM-free EPUB and DAISY eBooks, Web pages and more. It's directly integrated with Bookshare, Dropbox, G-Drive, Evernote, Pocket, Instapaper, and Gutenberg.

Features

- Built-in voices, as well as in-app purchases of higher-quality voices
- Listen to documents like it's music, with play-pause button, gestures or remote control
- Synchronized word and line highlighting, font choices, customizable color themes
- Easy extraction of common filetypes, as well as full integration with Bookshare
- Full-text search and playlists to find text or your books on you iOS device

Launch this app, select a book in the menu then locate the chapter list. Choose a chapter then locate the play button. On the upper right, you will find the audio and visual menu. Make some adjustments in both. Write down your observations in your Study guide.
