Matt Connect (APH)

Matt Connect 12 An educational smart tablet magnifier for the connected student! MATT Connect is available for purchase with Quota funds.

The MATT Connect™ is a magnifier, distance viewer, and an educational tablet with pre-loaded software – all in one device!

Students can: • magnify a print document • read a book from an online library • conduct internet research • view a smartboard • write and email assignments • take a test • and so much more!

Select Magnifier from the large print, talking menu. Put a book or paper under the Matt tablet then press the camera icon; play when the button appears. Try this with several materials on the table, write down your observations in the study guide.

View the following video to learn how to change the student menus
